CERTIFICATES

Backend: Backend Development Course
NodeJS: The Complete Guide
(MVC, REST APIs, GraphQL, Deno)
Fundamentals of UI/UX by Adobe
Linux: Master the Command Line
SQL: Complete SQL Mastery

SKILLS

TECHNICAL SKILLS

Proficient with:

JavaScript • NodeJS

Familiar With:

Data Structures • Algorithms • AWS •
Google Cloud • MongoDB • TypeScript
Java • C Programming • Express
Framework • Git/Github • NPM

ACHIEVEMENTS

- Won MacBook Air from Relevel
- Ranked 1 in Relevel Select Event
- Scored 849/1000 in Relevel Backend Development Test
- Ranked 10 in Scaler Contest
- 400+ problems solved over Scaler
- 200+ problems solved over LeetCode
- 1000+ total GitHub contributions

HOBBIES

- I like to read engineering blogs
- I also like to explore open-source projects on github

EDUCATION

GNIT HYDERABAD

B.TECH IN COMPUTER SCIENCE

Aug 2016 - Aug 2020

SCALER ACADEMY

DSA, SYSTEM DESIGN, COMPUTER
FUNDAMENTALS, SOFTWARE

DEVELOPMENT BOOTCAMP

Jan 2023 - Dec 2023

EXPERIENCE

NEODOVE BY VYAPAR | SOFTWARE DEVELOPMENT ENGINEER 1

Oct 2022 - Mar 2023 | Bengaluru, KA

- Worked on Backend, Database and the Frontend part of the CRM Application.
- Designed a logger using Express Framework in Typescript, which logs the information on various debug modes.
- Designed Incoming Softphone Feature using NodeJS as a Backend, Angular as a frontend, and REST APIs in Typescript.
- Implement Internet connection lost/restore on application using Angular Framework.
- Worked on optimizing high intensive SQL queries and fixing bugs.
- Tech Stack: Javascript, NodeJS, PostgreSQL, GIT, Angular

ADOBE CREATIVE TECHNOLOGY ACADEMY | INTERN

June 2019 - July 2019 | Guru Nanak Institutions, Hyderabad

Worked on AdobeXD tool to design a web apps and mobile apps.

NESTOR ANALYTICS | INTERN

June 2019 - July 2019 | Guru Nanak Institutions, Hyderabad

Worked on Backend part of the application to build REST APIs using NodeJS and Express Framework.

PROJECTS

URL SHORTENING | NODEJS PROJECT

- Created multi user url shortening service using with javascript that allows user to signup, login, update details, delete account.
- user can create short urls, read, update, delete the urls he created.
- Authenticated using JWT Token for every api except signup and login.
- Tech Stack: Javascript, NodeJS, Mongoose, GIT

CRM APPLICATION | NODEJS PROJECT

- This application has APIs for Customer Activities, Engineer Activities and Admin Activities.
- Jest used for performing unit testing.
- Tech Stack: Javascript, NodeJS, Mongoose, Jest, GIT

MOVIE BOOKING APPLICATION | NODEJS PROJECT

- Movie booking application has 3 actors: user, movie, theatre.
- User can able to book a movie, search for a movie in a theatre, view all the available movies.
- Movie and Theatre CRUD functionalities done by the admin owner.
- Tech Stack: Javascript, NodeJS, Mongoose, GIT

ECOMMERCE APPLICATION | NODEJS PROJECT

- Implemented CRUD functionalities on products, orders, categories and users.
- Done unit testing using jest framework.
- Tech Stack: Javascript, NodeJS, MYSQL, Jest, GIT
